

Third Global M&A Symposium The New Economics for the Private Middle Market

May 10-12, 2011

London, England

Dear Friends and Colleagues,

“Merger activity is off to a frenzied start in 2011,” reports Thomson Reuters, noting that “the value of takeovers worldwide was US\$356.1 billion in the first few weeks of the year, up 78% from the beginning of 2010. Experts said they expect this trend to continue.”

If you are an Intermediary, Investment Banker, CPA, Attorney, Private Equity Group, Business Advisory Firm, or Corporate M&A Professional, this Third Global M&A Symposium is your singular opportunity this year to hear from leading industry experts and practitioners from around the world on the key issues of the day. The conference will provide a forum to make strong and actionable connections in the private middle market through face to face interaction with industry decision makers and thought leaders.

You will connect with key middle market players from Asia, Central & South America, Europe, the Middle East, and North America who will share their deal-making insights with you. You will learn from global experts and thought-leaders to:

- Spot global, national & regional trends;
- Recognize new deal-making opportunities;
- Benchmark against industry “best practices”;
- Devise practical strategies for securing new deal flow;
- Develop new insights for successfully moving deals & engagements forward.

Please join me in London to hear what our thought-leaders and industry practitioners have to say. You don’t want to miss this opportunity.

Sincerely,

Robert E. Brown, Esq.
