WE ARE  
PRIMERUS™  
*Proficiency*

Continuing Legal Education, the fifth of the Six Pillars, revolves around developing proficiency in a skill or subject, a mastery gained through experience, dedication, and an ongoing commitment to excellence.

Proficiency goes hand-in-hand with value, and is the product of practice, born out of a thirst for learning and a desire for improvement. It is an artistry created by a determination to excel and a willingness to learn, qualities that only the finest in the legal profession possess.
